## +about

National Design Technology and BIM leader with 12+ years' experience in Australian architecture, spanning enterprise BIM governance, digital delivery, Revit and ACC standards, automation, technology strategy and capability development. Experienced in leading national teams, establishing scalable digital operating frameworks, evaluating technology investments and improving project delivery across complex, multi-sector portfolios. Combines strategic leadership with deep technical expertise in connected design-to-delivery workflows - Forma Site Design / Rhino / Sketcup → Revit → Forma Data / coordination → project delivery.

## +professional experience

### Associate / National Design Technology Manager - Bates Smart Sydney, Sept 2024 - July 2026

Led and nationalised the Design Technology and BIM function across Sydney, Melbourne and Brisbane, supporting approximately 270 staff and functionally leading 14 BIM team members. Reported directly to Practice Directors, advising senior leadership on Design Technology strategy, investment priorities, delivery risk, capability requirements and practice-wide implementation decisions. Passionate about the responsible adoption of AI, automation and data-driven workflows to improve design quality, operational performance and organisational capability across architectural practice.

#### 1. Enterprise Strategy and Executive Advisory -

- + Established and executed the national Design Technology strategy across three studios, advising Practice Directors on investment priorities, operational risk, capability gaps and implementation sequencing. Translated technical issues into business cases and practical decisions covering BIM governance, project support, technology deployment and workforce capability.

#### 2. National Operating Model -

- + Restructured and nationalised the BIM function, introducing coordinated resource allocation, consistent role expectations and cross-studio support to address the imbalance between 10 BIM team members in Sydney, four in Melbourne and no dedicated BIM representative in Brisbane.

#### 3. Digital Knowledge and Support Hub -

- + Transformed fragmented Design Technology infrastructure and support systems into a centralised digital operating platform called DT Hub within the SharePoint intranet, consolidating standards, procedures, approved tools, workflows, training resources and support services into a governed source of truth for approximately 270 staff.

#### 4. Project BIM Governance -

- + Influenced project and practice leadership to adopt mandatory Phase 20 BIM Discovery and Phase 30 BIM Engagement gates within BSMS (SalesForce). Embedded early decisions for Revit setup, CDE strategy, model division, LOD, responsibilities, documentation strategy and BIM Execution Planning, reducing the risk of late project rework, inconsistent setup and unmanaged downstream delivery requirements.

#### 5. Technology Evaluation and Capability Uplift -

- + Led technology evaluation, proof-of-concept testing and enterprise deployment of Design Technology platforms, including Guardian for Revit, Nezo, Earlymark and a Global eLearning Management System following structured vendor assessments and pilot programs. Developed the practice capability strategy through competency tracking, structured learning pathways and regular in-studio Lunch & Learn sessions, driving adoption of Revit, Forma (ACC), model health workflows, pyRevit, digital standards, automation and emerging Design Technology tools.

### BIM / Digital Practice Manager - Rothelowman Sydney, July 2021 - Sept 2024

#### 1. National BIM Strategy -

- + Spearhead the oversight of National BIM Operations, driving the evolution of Rothelowman's BIM protocols and standards. Successfully developed and executed a multi-year BIM strategy, integrating innovative technologies to optimise design and project delivery.

#### 2. Digital Transformation -

- + Authored comprehensive technology evaluations, formulated budget proposals for future adoption, and maintained a multi-year strategic roadmap for BIM, aligning with company goals.

### 3. Enterprise Standards -

- + Spearheaded the creation of an interactive and comprehensive 200-page Revit Manual, standardising BIM practices and enhancing team proficiency.
- + Led the implementation of the Master Reference File for consistent project execution which serves as a comprehensive library of Architectural and Interior Details, Sheets and Schedules.

### 4. Innovation in Design Analysis -

- + Pioneered a custom Solar Study Tool built upon RhinoInside.Revit, significantly enhancing design analysis capabilities for ADG/SEPP65 requirements.

### 5. Project Leadership

- + Provided BIM oversight for key projects, including but not limited to;
  - 41 Terry Rd, Rouse Hill
  - 39 Hassall St, Parramatta
  - 640 Bourke St, Melbourne
  - 5 Dunning Ave, Rosebery
  - The Landmark, St. Leonards
  - 376-384 Pacific Hwy, Lindfield
  - Yarralumla Retirement Village
  - East Walker St, North Sydney

### 6. BIM Committee Chair

- + Led a dedicated BIM team/committee in the creation, training, and quality control of BIM policies, procedures, standards, tools and data, significantly improving workflow efficiency and outcomes.

### 7. Capability Development & Uplift -

- + Delivered comprehensive training, troubleshooting, and support to all staff, ensuring seamless BIM adoption and integration into project workflows.

## Project BIM Manager - Bates Smart Sydney, Nov 2016 - July 2021

### 1. Management -

- + Report and work with the National BIM Manager on all Facets of BIM
- + Evaluate technology requirements for future adoption that align to company goals and vision
- + Assess, plan and execute BIM workflows, strategies & resourcing

### 2. Training & Support -

- + Executed studio-wide staff training and developed training manuals
- + Provided technical support for Autodesk suite software applications
- + Provided one-to-one mentoring on 'Best Practice' workflows to project teams as required
- + Conduct interviews of new staff
- + Attended conferences, seminars and workshops for BIM
- + Liaised with national vendors and software developer support staff
- + Automate routines in BIM to support standards and improve productivity

### 3. Project Deliverables -

- + BIM Manager on selected projects, coordinating and collaborating with various stakeholders internal & external
- + Manage documentation & modelling accountabilities, enforce BIM company standards within project teams
- + Organise and execute project 'Kick Offs'
- + Assist in project work on all phases of design & development

### 4. Project. Pitt St OSD - Sydney Metro

- + Build to Rent - Stage 2 SSDA + DD
- + 38 storey residential tower - Over Station Development
- + JV collab with Cox, Fosters&Partners
- + BIM360, Revit, Revizto, Navisworks

### 5. Project. Ivanhoe - Macquarie Park

- + 24 storey residential high rise
- + DA + DD phase
- + Cross office (Sydney + Melbourne) project delivery

### 6. Project. 1 Denison St - North Sydney

- + 38 storey commercial tower & retail
- + DD + CD phase
- + BIM360 - external documentation/modelling resource utilised (Vietnam)

### 7. Project. Channel Nine - North Sydney

- + Commercial Workplace Fitout
- + DD + CD phase

### 8. Project. Dickson Interchange - Canberra

- + Mixed-use Office & Multi-residential buildings
- + DA & Tender

**Senior Designer/BIM Model Manager - Cox Architecture**  
**Sydney, May 2014 - Nov 2016**

**1. NSW Forensic Pathology & Coroners Court, Aug - Nov 2016**  
+ Joint-venture with STH Architects  
+ DA delivery and design  
+ 3D Revit modelling, shadow studies, explored design process/options utilising Adobe tools.

**2. Sydney Metro - Transport for NSW Feb - Aug 2016**  
+ Reference documentation and 3D Revit  
+ Off-site joint venture collaboration to include OSD and EIS teams  
+ In-house Structural and services coordination.

**3. (Secondment) Allen Jack+Cottier Architects Nov 2015 - Feb 2016**  
+ Projects - Senior Living & Care Facilities  
• Bankstown Residential Care Facility  
• Dementia Care Facility, Cardiff NSW  
• ARV Lady Gowrie Retirement Village, Gordon NSW  
+ Design Development, DA and Tender documentation  
+ 3D Revit modelling, shadow studies, explored design process/options utilising Adobe tools.

**4. Neuroscience Research Australia (NeuRA), Randwick 2031 - Stage 2**  
+ Health - 285hrs  
+ Design Development of 2 basement levels, commercial fit-outs and additional conference space enclosure  
+ Implement model management plan, purging & clash detection.

**5. Four Points Hotel - 161 Sussex St, Sydney 2000**  
+ Hotel/Commercial - 4000hrs+  
+ Construction Documentation for the refurbishment and expansion of an existing Hotel to include; Porte Cochere, Hotel lobby, large Convention/Function addition to be built over a live motorway, and a new 27 storey Tower & Bar  
+ 3D modelling, shadow studies, detailing, design options were explored  
+ Heritage interpretation and analysis of adjoining Heritage listed buildings/sites  
+ Structural & services coordination, workshop collaboration, Aconex  
+ BIM model management (Revit) and deliverables, QA analysis and optimisation, clash detection & problem solving  
+ Weekly site visits along with site inspection reports fulfilled
